

Dolores Owen,
Advisory Board

Dolores Owen has a son who was in prison. In 1996, he was suddenly sent to Brazoria Texas where the video of abuse surfaced. It was the start of a rude education for Dolores in the realities of Missouri DOC.

After voicing her anger in various publications and outlets, she was invited to attend a National CURE meeting where she met Hedy Harden. She became a member of Missouri CURE and various other organizations that fight the injustices of the criminal justice system.

Since 1996, she has served as Chair, Secretary, and has donated money and equipment to ensure the survival of Missouri CURE. She is a lifetime member and believes in the power of forgiveness and compassion. "If lawbreakers are never given the opportunity to change," she states, "they never will. How can they ever hope to be better if they remain pigeon-holed by those in power in a preconceived notion of their worth? That must change if the people really want a safe society."

Dolores has written a book called "PUNKIN: A Dog Gone Story"! She would love your support, and has agreed to donate a portion of her profits if you buy her book.

Just copy this discount code: **DV3TAJ8Z** then click her book. It will take you to her e-store where you can paste this discount code into the discount code field at checkout. Let's all support Dolores and her book which looks fantastic!!
